HOMEOWNERSHIP

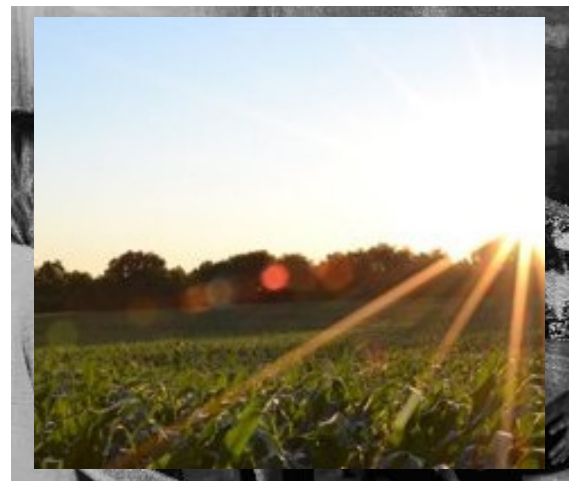

Month

Owning a home is to this day considered the pinnacle of the American dream. With owning a home comes homeowners insurance. As agents the goal is to provide the best protection for your home at the best rate for you.

The basis of homeowners insurance is calculated from a variety of inputs. Whether it is age of the home, the type of plumbing and electrical, age and type of the roof, square footage, claims filed, where the home is located, and even whether you're a first time homeowner can affect the price of your insurance.

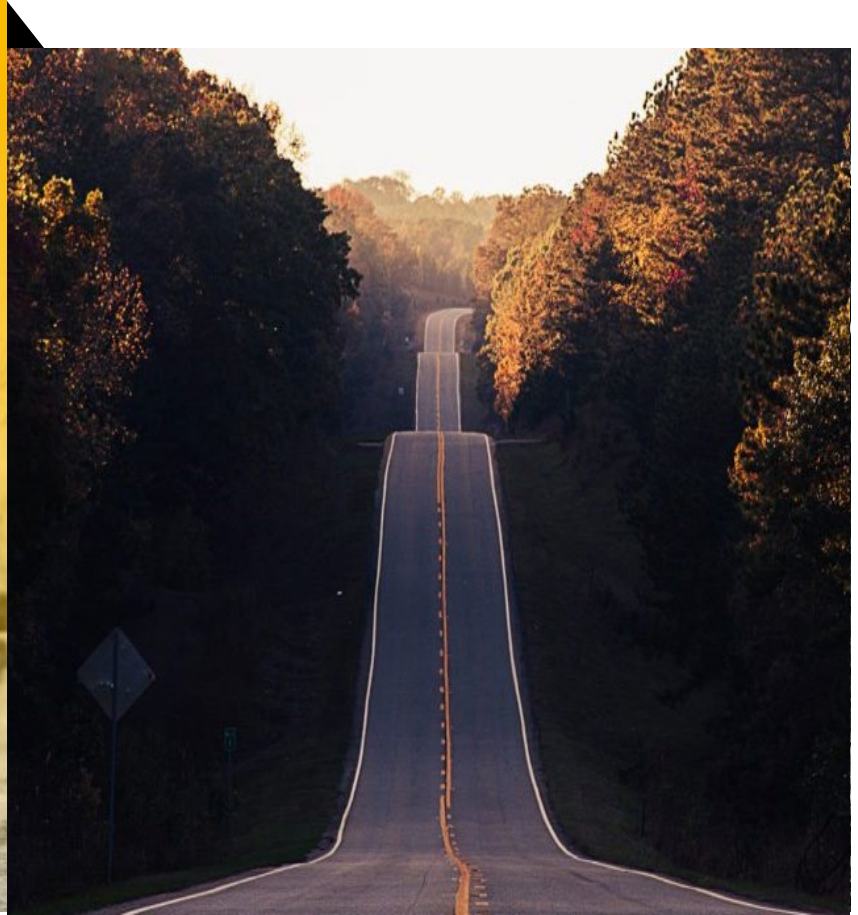

Your house more often than not is considered your most valuable possession. Make sure you are getting the coverage you need. We are always here to do the homeowners insurance shopping for you. As an agency the goal is to help the clients. We are here to answer all your questions and concerns.

You are welcome to give us a call for home quotes no commitment required. You can also request a

"The beginning is
always today." —

National Dairy Month

It is national Dairy month we would like share a few things you may want to know to protect yourself if you have livestock.

Dairy Revenue Protection: Dairy Revenue provides protection against a decline in revenue (yield and/or price) on the milk produced from dairy cows on a quarterly basis.

Livestock Gross Margin: Provides protection against loss of gross margin (market value of livestock minus feed costs).

Livestock Risk Protection: Provides protection against price declines.

Of course on the RMA website there is information galore. We encourage you to visit and find what you need.
